FREELANCER SUMMIT BANGLADESH 2027

Website Development Requirement & Functional Specification

Agency Brief • Draft for Web Development Partner

Project	Freelancer Summit Bangladesh 2027
Proposed timing	Late November 2026 • Dhaka (exact date/venue to be confirmed)
Scale	National campaign + 8 Divisional Summits + 12 District Roadshows + 100 Campus Programs + Grand Dhaka Summit
Primary organizer	Bangladesh Association of Contact Center & Outsourcing (BACCO) / DoICT
Reference	Website experience inspired by BPO Summit Bangladesh — bposummit.org.bd

1. Executive Overview

Freelancer Summit Bangladesh 2026 is envisioned as the largest national platform dedicated to freelancers, aspiring freelancers, digital professionals, AI practitioners, entrepreneurs, students, marketplaces, technology companies and the wider digital economy ecosystem of Bangladesh.

The initiative will not be a single-day event only. It will operate as a national campaign that builds momentum through activities across Bangladesh and culminates in the Grand Freelancer Summit in Dhaka in late November 2026.

The website must therefore function as both an event website and a national digital campaign platform. It should support public information, registrations, speaker and agenda management, awards, sponsorship and exhibition enquiries, BACCO Freelancer Forum registration, campaign updates, media content, partner visibility and post-event legacy content.

2. Website Vision

The website should feel premium, energetic, modern and technology-driven — suitable for a national flagship summit. It should communicate scale, credibility and opportunity from the first screen.

- Modern international conference/summit visual language with a Bangladesh-focused identity.
- Strong hero section with summit title, theme/tagline, countdown and primary calls-to-action.
- Mobile-first, fast-loading and accessible design.
- English-first architecture with the ability to support Bangla content and/or a full Bangla version.
- CMS-driven so the organizing team can update speakers, sessions, news, partners, sponsors, exhibitors, awards and registration information without developer support.
- Built for future annual editions so the platform can be reused for Freelancer Summit Bangladesh 2027 and beyond.

3. Strategic Objectives of the Summit

- Establish freelancing as one of the most respected and highly desired professions in Bangladesh.
- Increase awareness among youth about freelancing, AI and digital service sectors.
- Create a continuous national platform for developing internationally competitive skilled human resources.
- Connect university and polytechnic students with the global digital economy.
- Increase Bangladesh's connectivity with international marketplaces, technology institutions and global experts.
- Build a national ecosystem for new freelancers, skilled freelancers and freelancer-to-entrepreneur journeys.
- Increase youth interest in ITES, BPO and AI-based digital services.
- Facilitate Freelancer ID and BACCO Freelancer Forum membership registration.
- Bring international speakers, trainers, successful entrepreneurs and global marketplace representatives into the ecosystem.

4. National Implementation Journey

Phase	Coverage	Key Activities	Website Requirement
1. District Programs	20 districts	Freelancer roadshow, career awareness, skill development, new freelancer campaign Government/industry/international experts; success stories; AI showcase; marketplace sessions	District pages, schedules, registration/lead capture, campaign updates
2. Campus Programs	100 universities/polytechnics/higher education institutions	Seminar, workshop, career talk, AI awareness, mentor sessions	Campus activation pages, calendar, registration and ambassador/lead capture
3. Grand Dhaka Summit	Dhaka	Main summit, awards, keynote, seminars, workshops, exhibition, networking	Full event microsite experience, agenda, speakers, awards, exhibitors, sponsor, registration
4. Digital Campaign	Nationwide	Media campaign, social media, digital platform, campus ambassadors, success stories	News, stories, media gallery, social integrations and campaign landing pages

5. Suggested Main Navigation

- Home
- About Summit
- District Summits
- Campus Programs
- Grand Summit
- Agenda
- Speakers & Experts
- Freelancer Awards
- Exhibition
- Sponsorship
- BACCO Freelancer Forum
- Registration
- News & Updates
- Media Gallery
- Partners
- Contact

The top navigation should also contain prominent action buttons such as: Register for Summit, Nominate for Awards, Become a Sponsor, Exhibit at Summit and Join BACCO Freelancer Forum.

6. Home Page – Recommended Structure

Hero / First Screen: Summit title, theme/tagline, date, Dhaka, countdown timer, hero visual/video, primary CTA buttons.

Trust / Organizer Strip: Organizer, government/development partners, strategic partners and supporting organizations.

What is Freelancer Summit Bangladesh 2026?: Short positioning statement explaining why the summit is important and why it is the national flagship event.

National Journey: Visual map/timeline showing 8 divisions, 12 districts and 100 educational institutions leading to Dhaka.

Why Attend?: Benefits for freelancers, aspiring freelancers, students, entrepreneurs, companies, buyers, marketplaces, investors and partners.

Summit Highlights: Awards, keynote sessions, AI showcase, marketplace sessions, workshops, career talks, success stories, exhibition and networking.

Featured Speakers: Dynamic speaker cards with photo, name, designation, organization and profile page.

Agenda Preview: Upcoming/highlight sessions with date, time, venue/hall and speaker.

Awards Spotlight: Prominent section linking to award categories, eligibility and nomination form.

Exhibition & Sponsorship: High-visibility CTA for organizations interested in booths, branding and sponsorship.

Freelancer Forum: Explain BACCO Freelancer Forum and link directly to membership registration.

Success Stories: Profiles/videos of Bangladeshi freelancers and entrepreneurs.

Partners & Sponsors: Logo wall with category-based sponsor visibility.

Latest News: Announcements, roadshow updates, speaker announcements and media coverage.

Media Gallery: Photos/videos from divisional, district and campus programs.

Final CTA: Register / Nominate / Sponsor / Exhibit / Join Forum.

Footer: Contact, social channels, privacy policy, terms, organizer details and important links.

7. Grand Summit Event Module

- Event date, venue, location map and countdown.
- Detailed agenda with filters by date, session type and track.
- Session detail pages with title, description, time, room/hall, moderator and speakers.
- Speaker directory with profile pages and biographies.
- Live/near-live announcements and schedule updates if required.
- Exhibition directory and exhibitor profiles.
- Downloadable event brochure / agenda / sponsorship deck.
- Post-event archive for presentations, photos, videos, reports and highlights.

8. Registration Architecture – Critical Requirement

Registration must NOT be treated as one generic form. The website should have separate registration journeys with separate data fields, confirmations and admin reporting.

Registration Type	Purpose	Suggested Data	Admin Output
Summit/Event Registration	Audience registration for the Grand Summit	Name, email, mobile, organization/institution, designation, city, attendee type, interests, consent	Attendee database, CSV export, confirmation email/SMS, QR/e-ticket capability
Freelancer Award Nomination	Separate application/nomination for Freelancer Awards	Applicant/nominee profile, category, portfolio, achievements, marketplace profile, supporting links/documents, declaration	Award application database, category-wise list, review status, downloadable applications
Sponsorship Enquiry	Organizations seeking sponsorship packages	Company, contact person, designation, phone/email, sponsorship interest, budget/range, requirements, message	Sponsor lead pipeline, enquiry status, follow-up notes
Exhibition / Booth Registration	Organizations requesting exhibition space	Organization, sector, booth requirement, contact, products/services, branding needs, requirements	Exhibitor database, booth allocation status, invoice/communication workflow
BACCO Freelancer Forum Registration	Membership / registration for BACCO Freelancer Forum	Personal profile, freelancer details, skills, marketplace profile, NID/required fields only if officially needed, consent	Forum member database and application status; integration/API if available

9. Freelancer Award System – Dedicated Module

The Freelancer Award Session is a flagship feature and should have its own dedicated section, visual identity and registration workflow. Award nomination must be clearly separated from normal summit registration.

- Dedicated Awards landing page.
- Award categories with category description, eligibility, criteria and submission deadline.
- Separate nomination/application form.
- Ability to submit portfolio links, marketplace profiles and supporting documents where required.
- Applicant acknowledgement and unique application/reference number.
- Automated email confirmation after submission.
- Admin dashboard for category-wise applications.
- Application status fields: Submitted, Under Review, Shortlisted, Winner, Rejected/Incomplete.
- Optional jury/reviewer access with controlled permissions.
- Shortlisted nominee showcase page.
- Winner announcement page and permanent winner archive.
- Optional public voting module only if the organizing committee decides to introduce it.

- Ability to export applications and reports to Excel/CSV.
- Strong privacy and consent controls because award applications may contain personal and professional information.

10. Sponsorship Module

- Sponsorship opportunity landing page.
- Clearly presented sponsorship tiers/packages with benefits.
- Download Sponsorship Prospectus PDF.
- Sponsor enquiry form.
- Optional meeting request / call-back field.
- Sponsor logo upload should be restricted to admin or approved sponsor portal.
- Sponsor categories such as Title, Platinum, Gold, Silver, Strategic/Technology/Knowledge/Media Partner — final naming to be confirmed.
- Admin can mark leads as New, Contacted, Negotiation, Confirmed or Closed.
- Confirmed sponsor logos automatically appear in designated website locations.

11. Exhibition Module

- Exhibition / Expo landing page explaining who should exhibit and why.
- Interactive or visual floor-plan capability, if the venue layout is available.
- Booth enquiry/registration form.
- Exhibitor profile page with company logo, description, website and sector.
- Booth availability status: Available / Reserved / Confirmed.
- Admin booth allocation management.
- Exhibitor directory and search/filter.
- Exhibition map and visitor information.

12. BACCO Freelancer Forum Module

The website should position the BACCO Freelancer Forum as a long-term ecosystem initiative rather than simply another event registration form.

- Forum overview: purpose, benefits, community value and eligibility.
- Membership/registration CTA.
- Separate registration/application workflow.
- Member benefits section.
- Member success stories and community activities.
- FAQ.
- Potential future member login/profile capability.
- Integration-ready architecture for a future BACCO membership database/API.

13. Speakers & Experts

- Speaker directory with filters by country, expertise and session.
- Speaker profile page: photo, name, designation, organization, biography, expertise, social/professional links.
- Support for international speakers, trainers, successful freelancers, entrepreneurs, policymakers and marketplace representatives.
- Featured speaker slider on homepage.
- Admin-controlled speaker ordering and visibility.

14. Agenda & Session Management

- Day/date-based agenda.
- Session types: Keynote, Seminar, Workshop, Career Talk, Panel, AI Awareness, Success Story, Marketplace Session, Freelancer-to-Entrepreneur, Award Session, Networking.
- Track/hall/room support.
- Session detail pages.
- Speaker association.
- Downloadable agenda.
- Admin ability to change schedule without developer intervention.
- Optional 'Add to Calendar' functionality.

15. National Journey / 8 Divisions / 12 Districts / 100 Campuses

This section should visually differentiate the initiative from a normal conference website. The national journey should be a major storytelling component.

- Interactive Bangladesh map or attractive division cards.
- 8 Divisional Summit pages.
- 12 District Roadshow pages.
- 100 Campus Program entries/pages or a searchable activation directory.
- Each activity should have date, location, organizer/partner, event description, speakers/mentors, registration link and photo/video gallery.
- Show progress counters such as divisions covered, districts covered, institutions activated and participants reached, with values managed from the CMS.
- Timeline leading from grassroots activities to the final Dhaka Summit.

16. Content & Media Management

- News and announcements.
- Success stories / freelancer profiles.
- Press releases.
- Photo galleries.
- Video gallery / embedded YouTube content.
- Downloads: brochure, agenda, sponsorship prospectus, award guidelines, media kit.

- Social media feed/integration where appropriate.
- Press/media coverage section.
- Search engine friendly article URLs.

17. Admin / CMS Requirements

- Role-based admin access.
- Dashboard showing registrations, award applications, sponsor leads, exhibitors and Forum registrations.
- Manage pages and homepage sections.
- Manage speakers, sessions, venues, partners, sponsors, exhibitors, awards and news.
- Manage registration form fields.
- View, search, filter and export submitted data.
- Email notification templates.
- Bulk email capability or integration-ready architecture.
- Status management for award applications and business enquiries.
- Media/file management.
- SEO fields for pages/posts.
- Analytics integration.
- Audit-friendly admin permissions.

18. SEO & Digital Marketing

- SEO-friendly URLs and page titles.
- Meta description and keyword management.
- Event structured data.
- Fast Core Web Vitals performance.
- Landing pages for keywords around freelancing, AI, digital skills, freelancer summit and Bangladesh's digital economy.
- Social share cards.
- Campaign/UTM tracking.
- Dedicated pages for each division, district and campus activation where useful for search visibility.
- Google indexing and Search Console setup.

19. Recommended URL / Page Architecture

Suggested URL structure:

- /
- /about
- /national-journey
- /divisional-summits
- /district-roadshows
- /campus-programs
- /grand-summit

- /agenda
- /speakers
- /speaker/[slug]
- /awards
- /awards/categories
- /awards/nominate
- /sponsors
- /sponsorship-opportunity
- /exhibition
- /exhibition/apply
- /forum
- /forum/register
- /register
- /success-stories
- /news
- /news/[slug]
- /media
- /partners
- /contact
- /privacy-policy
- /terms

20. Recommended Homepage CTA Strategy

CTA	Destination	Priority
Register for Summit	/register	Primary
Nominate for Freelancer Awards	/awards/nominate	Primary
Become a Sponsor	/sponsorship-opportunity	Primary
Exhibit at Summit	/exhibition/apply	Primary
Join BACCO Freelancer Forum	/forum/register	Primary
Explore Agenda	/agenda	Secondary
Meet the Speakers	/speakers	Secondary

21. Content Inputs Required from Organizing Team

- Final summit logo and brand guidelines.
- Final theme/tagline.
- Exact date and venue.
- Organizer/partner logos and official descriptions.
- Award categories, criteria, eligibility and guidelines.
- Sponsor packages and commercial terms.
- Exhibition package and booth/floor plan.
- Forum membership rules and registration requirements.
- Speaker information and photographs.
- Agenda/session details.
- Division, district and campus program information.

- Official contact details and social media links.
- Privacy policy, terms and consent language.
- Final photographs, videos and campaign creatives.

22. Reference Website & Benchmark

The website should take structural and usability inspiration from the BPO Summit Bangladesh website, while being significantly expanded for the Freelancer Summit's national journey and multiple registration workflows.

Reference: https://bposummit.org.bd/ || https://www.gitex.com/ || https://takeoffistanbul.com/en/

Useful benchmark areas include: homepage hero and registration CTA, event information, agenda, speaker directory, exhibitors, sponsor presentation, contact page and content management approach.

The current BPO Summit website provides a useful benchmark for event navigation, event schedule, speakers, exhibitors, sponsors and registration. Freelancer Summit Bangladesh 2026 should go beyond this model by adding the national 8-division/12-district/100-campus journey and dedicated Awards, Sponsorship, Exhibition and BACCO Freelancer Forum workflows.
